| Component                                                                                                                    | Details                                                                            | Deliverables                                               |
|------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|------------------------------------------------------------|
|                                                                                                                              | Also Ask targeting,<br>voice search<br>optimization                                |                                                            |
| <b>GEO (Generative<br/>Engine Optimization)</b>                                                                              | Fact-dense content,<br>entity<br>establishment,<br>LLM-readable<br>structured data | AI citations (ChatGPT,<br>Perplexity, Gemini)              |
| <b>International SEO<br/>(Hreflang)</b>                                                                                      | UAE, Saudi Arabia,<br>USA markets                                                  | /ae/, /sa/, /us/ subdirectories<br>with language targeting |
| <b>Social Media<br/>Marketing</b>                                                                                            | Instagram,<br>LinkedIn, Facebook<br>setup + 3 months<br>content calendar           | Brand awareness, lead<br>generation                        |
| <b>Local SEO</b>                                                                                                             | Google Business<br>Profile optimization<br>(Delhi, Bangalore)                      | Local pack rankings                                        |
| <b>CRO &amp; Lead Magnets</b>                                                                                                | Downloadables,<br>forms, basic<br>automation                                       | Conversion-optimized user<br>journey                       |
| <b>Performance<br/>Reporting</b>                                                                                             | Monthly<br>dashboards,<br>strategy calls with<br>Vasu                              | Data-driven optimization                                   |
| <b>Phase 2 Completion:</b> 200+ PSEO pages indexed, international sites live, social media active, AI visibility established |                                                                                    |                                                            |

DETAILED BREAKDOWN: WHAT’S INCLUDED

1. AEO/GEO (AI Optimization) — ₹90,000 value

**Answer Engine Optimization (AEO):** - FAQ schema for 50+ common questions  
- “People Also Ask” targeting and optimization - Voice search optimization (conversational queries) - Direct answer formatting for Google snippets  
**Generative Engine Optimization (GEO):** - Entity establishment for “Suraj Wood” in knowledge graphs - Structured data for LLM ingestion (ChatGPT, Claude, Gemini) - Fact-dense content with citations and sources - Brand mention monitoring in AI responses  
**Expected AI Visibility:** - 50+ AI citations within 6 months - Featured in ChatGPT/Perplexity responses for “best acrylic panels India” - Knowledge panel activation for brand searches

2. Social Media Marketing — ₹20,000 value

| Platform  | Strategy                                 | Content                          |
|-----------|------------------------------------------|----------------------------------|
| Instagram | Visual storytelling, project showcases   | 3 posts/week + Stories + Reels   |
| LinkedIn  | B2B outreach, architect/designer network | 2 posts/week + industry articles |
| Facebook  | Local community, homeowner targeting     | 2 posts/week + lead gen ads      |

Content Pillars:

- Before/after kitchen transformations
- Designer spotlight features
- Maintenance tips and hacks
- Behind-the-scenes manufacturing
- Client testimonials and project galleries

**Deliverables:** - 5-month content calendar (36 posts) - Branded templates and visual identity - Hashtag strategy and engagement protocols - Monthly performance reports

---

### 3. Internal SEO & Site Architecture — ₹40,000 value

- **URL Structure:** /products/acrylux/kitchens/delhi/ hierarchy
- **Breadcrumb Navigation:** User and search engine friendly
- **Internal Linking Matrix:** Automated contextual links between related pages
- **Category Architecture:** Product → Application → Location taxonomy
- **Tag System:** Color, finish, thickness, usage-based filtering

---

### 4. International SEO (Hreflang) — ₹50,000 value

| Market       | URL Structure | Language       | Content Adaptation                       |
|--------------|---------------|----------------|------------------------------------------|
| UAE          | /ae/          | English        | Gulf-specific projects, currency (AED)   |
| Saudi Arabia | /sa/          | English/Arabic | Regional compliance, cultural adaptation |
| USA          | /us/          | English        | NRI market, imperial measurements        |

#### Technical Implementation:

- Hreflang tags with self-referencing and reciprocal annotations
- Geo-targeting in Search Console
- Localized content (not just translated)
- Regional schema markup

---

### 5. Analytics Platforms & Monitoring — ₹40,000 value

| Platform           | Purpose                             | Setup                           |
|--------------------|-------------------------------------|---------------------------------|
| Google Analytics 4 | User behavior, conversion tracking  | Custom events, goals, audiences |
| Google Tag Manager | Tag deployment without code changes | All tracking via GTM            |

| Platform                 | Purpose                              | Setup                                    |
|--------------------------|--------------------------------------|------------------------------------------|
| <b>Looker Studio</b>     | Executive dashboards                 | Real-time SEO, traffic, lead reports     |
| <b>Search Console</b>    | Search performance, index monitoring | Weekly technical audits                  |
| <b>Uptime Monitoring</b> | 24/7 site availability               | Pingdom/UptimeRobot alerts               |
| <b>Rank Tracking</b>     | Keyword position monitoring          | Daily rank checks, competitor comparison |
| <b>Heatmaps</b>          | User behavior visualization          | Microsoft Clarity integration            |

**Dedicated Account Manager will provide:**

- Weekly performance updates via email
- Bi-weekly strategy calls (30 minutes)
- Monthly comprehensive reports with recommendations
- Priority WhatsApp support for urgent issues

---
